

## Topics in the Theory of Lifting

By Alexandra Ionescu Tulcea

Springer Okt 2013, 2013. Taschenbuch. Book Condition: Neu. 229x152x11 mm. This item is printed on demand - Print on Demand Neuware - The problem as to whether or not there exists a lifting of the  $M^t/. 1$  space ) corresponding to the real line and Lebesgue measure on it was first raised by A. Haar. It was solved in a paper published in 1931 [102] by L. von Neumann, who established the existence of a lifting in this case. In subsequent papers J. von Neumann and M. H. Stone [105], and later on L. Dieudonne [22], discussed various algebraic aspects and generalizations of the problem. Attempts to solve the problem as to whether or not there exists a lifting for an arbitrary  $M^t/. space$  were unsuccessful for a long time, although the problem had significant connections with other branches of mathematics. Finally, in a paper published in 1958 [88], D. Maharam established, by a delicate argument, that a lifting of  $M^t/. always exists (for an arbitrary space of a-finite mass). D. Maharam proved first the existence of a lifting of the  $M^t/. space corresponding to a product  $X = T \times I$  and a product measure  $J.1 = Q \otimes J.1$  with...$$

### Reviews

*The ebook is easy in read through easier to fully grasp. It is rally fascinating throgh reading through time. I am effortlessly can get a enjoyment of reading a written publication.*

-- Kiarra Schultz III

*It is great and fantastic. Sure, it is actually perform, nevertheless an amazing and interesting literature. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- Ivy Hilll DDS
