By Hartmut Warm

Rudolf Steiner Press, United Kingdom, 2010. Paperback. Book Condition: New. 232 x 156 mm. Language: English . Brand New Book. A milestone in modern research on the the harmony of the spheres. - Novalis magazine This book reignites the debate on the harmony of the spheres. - Das Goetheanum Is the solar system ordered, or is it simply the result of random and chaotic accidents? This book takes us on a powerful and compelling journey of discovery, revealing the celestial spheres astonishingly complex patterns. The movements of the planets are found to correspond accurately with simple geometric figures and musical intervals, pointing to an exciting new perspective on the ancient idea of a harmony of the spheres . Hartmut Warm s detailed presentation incorporates the distances, velocities and periods of conjunction of the planets, as well as the rotations of the Sun, Moon and Venus. Numerous graphics - including colour plates - illustrate the extraordinary beauty of the geometrical forms that result when the movements of several planets are viewed in relation to one another. In addition, the author describes and analyses the concepts of the music of the spheres , with special consideration given to Johannes Kepler s revolutionary...
